

Rep. Waxman and Sen. Dorgan release a new report, prepared jointly by the minority staff of the House Government Reform Committee and the staff of the Senate Democratic Policy Committee, that is the first comprehensive assessment of the magnitude of Halliburton's unreasonable billings in Iraq. The report finds that government auditors have identified more than \$1 billion in "questioned" Halliburton costs and additional \$442 million in "unsupported" charges. **Documents and Links**
